Re: Circulation Pump

Project #: 8-2252

Dear Ms. Carlson

I would like to thank you for how quickly Greene & Assoc. has responded to the problems we have been having at Bleckley County. Your efforts to insure a speedy remedy of the issues are appreciated. Furthermore, we do not object to using the substitute circulation pump that has been installed. We do, however, ask that the pump that was removed, be kept so that if any problems arise, we will not have the same trouble getting a replacement. Not having hot water is a major issue that could quickly sour an owner's perception of us as a contractor, as well as you as a plumbing subcontractor. This has been a successful project, and we are pleased with the job that Greene & Assoc has done. Thank you for assisting us in maintaining the satisfaction of the owner.

Sincerely,

Matt Hightower  
Proj Engineer
