Re: Sumter Regional Hospital
C.T. Scan Suite Renovation

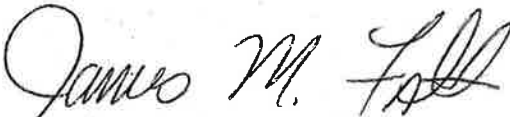

Dear Chip,

I would like to take this opportunity to thank you and Greene & Associates for an outstanding project. The level of professionalism shown by the Greene Team far exceed the standards we come to accept.

Several key items which stand out: Greene & Associates' supervision and ability to work within a schedule. Mr. Jay Davis, Greene & Associates' superintendent on this project, did an outstanding job of not only installing a quality product, but communicating with the Hospital and WSCC. We also owe a debt of thanks to you for doing a fine job of managing the Greene Team and for facilitating Greene & Associates' scope of work to be completed on time.

After the very successful Redman Homes Project, Sumter Regional Law Enforcement Center and now the C.T. Scan Suite Project, Greene & Associates has established themselves as WSCC's premier mechanical contractor. We look forward to our next project together. Thank you for a job well done.

Best Regards,
WARREN SCOTT CONTRACTING CO.

James M. Fallon
Vice President Of Operations
